## Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with James Folker on February 8, 2006.

The application has been amended as follows:

- Claim 1, line 15: after the phrase "metal layer", the following phrase was inserted: "having a thickness of 10 to 50 Angstroms"; and
- Claim 10, line 18: after the phrase "metal layer", the following phrase was inserted: "having a thickness of 10 to 50 Angstroms".

## Reasons for Allowance

3. The present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious the improved GMR performance observed by applicants for a magnetoresistive (MR) spin-valve sensor possessing the claimed structure.

While the prior art of record disclose MR spin-valve sensors comprising back layers formed of Au, Ag, Cu and their alloys, the prior art of record fails to teach or render obvious the unexpected improvement in GMR performance shown by applicants for the claimed AuCu and AgCu alloy concentrations when used in conjunction with a

metal layer disposed adjacent the specular layer having a thickness of 10 to 50 angstroms. Specifically, the Examiner notes that Figures 5 and 6 illustrate the improvement in GMR performance by utilizing the claimed alloy compositions. The Examiner notes that since the thickness of the metal layer is taught to effect the GMR performance, the thickness of the layer was deemed necessary inorder to bring the claims such that they were commensurate in scope with the showing of unexpected results.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M. Bernatz whose telephone number is (571) 272-1505. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney can be reached on (571) 272-1284. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
